

**DONOVAN HATEM LLP IS PLEASED TO ANNOUNCE
THE RELEASE OF TWO NEW BOOKS**

Megaprojects: Challenges and Recommended Practices, Edited by David J. Hatem and David H. Corkum, published by American Council of Engineering Companies, August 2010

This book addresses the challenges that plague many of the huge public infrastructure projects and offers concrete, practical solutions. Bringing together the diverse perspectives of dozens of past and current megaproject participants, the editors provide a comprehensive guide to successfully dealing with the unique planning, management, and execution of megaprojects, with a comprehensive focus on risk management and professional liability risk issues for consulting engineers. The book may be purchased through ACEC's online bookstore at www.acec.org.

Design-Build Subsurface Projects, Second Edition, Edited by Gary S. Brierley, David J. Hatem, and David H. Corkum, published by Society for Mining, Metallurgy, and Exploration, August 2010

This cutting-edge book provides a straightforward, comprehensive look at how to make Design-Build work on complicated projects involving tunnels, dams, and deep foundations. This second edition is an indispensable resource for owners, engineers, construction managers, contractors, and others involved in the design and construction of subsurface projects. The book may be purchased through SME's online bookstore at www.smenet.org.
